

PROBLEM Busters

Why...

does this problem keep coming back to haunt us?

Why...

don't we ever get around to dealing with this problem?

Why...

doesn't anyone take ownership of this problem?

Why...

can't we ever agree on what causes our problems?

Sound Familiar? Need help to:

- Get to the heart of a problem
- Harness the power of existing knowledge in the organisation
- Learn problem solving on real life problems
- Provide your change strategy with a practical implementation 'engine'

OUR *Guarantee*

We will...

solve problems now and forever

We will...

coach your organisation in solving future problems

We will...

demystify the problem solving process

We will...

avoid unnecessary use of complex techniques and confusing jargon

MONEY BACK IF NOT SATISFIED

PROBLEM Busters

90% of problems and opportunities for improvement in organisations are already known

10% of solutions to problems may not be known and may require more sophisticated techniques

PROBLEM *Busters*

PROBLEM

you need something which unlocks the organisation's often ignored and hidden knowledge yet is:

— SIMPLE

— TEAMWORK BASED

— COST EFFECTIVE

— TIME EFFICIENT

— YOUR PROPERTY RATHER THAN THE CONSULTANTS PROPERTY

SOLUTION

Paul Carey and Robert Re have between them fifty years of experience and expertise in this field and they can help you uncover the known and unknown solutions to your problems

Sixteen hours of your valuable time is all that is needed to solve regular problems and coach takes force members in techniques which are retained when constantly practiced

However more complex problems requiring data gathering and analysis will take longer

A four hour follow up for the same agreed fee

Process is integrated into change or continual improvement programs

SUCCESS

This proven process has:

— reduced the registration time for a new drug by months

— increased margins for a national wholesaler

— solved forever the top five customer complaints for a new model car

— eliminated unsightly cracks in a confectionery product world wide

— abolished the major cause of defects in a flagship automotive product
